

CSP JOB SHEET

EGM-Grazing Management 5

ENHANCEMENT: Establish and maintain 60% of the operation's forage in warm season grasses, of which at least 15% are native species, in order to optimize plant utilization, improve plant and animal health, and enhance biodiversity. Applicable in Coastal Plain counties.

BENEFITS

(SHORT DESCRIPTION OF ENHANCEMENT BENEFITS)

- By having desirable plants in pastures/paddocks proper utilization will be increased and plants and animals will be healthier.

CRITERIA

To be eligible for this enhancement payment, fields must meet the following criteria.

- 60% of the warm season grasses shall be identified as desirable from the CSP plant list.
- 15% of plant community must be native species from CSP plant list.

RECORDKEEPING

In order to verify performance with these criteria, you must complete the following records.

- Fields shall be maintained for the life of the contract.
- Field visits/spot checks will be conducted to verify that this composition is being maintained.
