

## CSP JOB SHEET

ENM-Legumes in  
Rotation

**ENHANCEMENT: Use annual or biennial legumes in rotation to reduce commercial fertilizer.**

### BENEFITS

- This enhancement will better utilize a locally available resource thereby reducing the use of energy dependent manufactured fertilizer.

### CRITERIA

**To be eligible for this enhancement payment, fields must meet the following criteria.**

- Be part of an operation that fertilizes crops with energy dependent manufactured fertilizer.
- A legume must precede each crop that benefits from reduced nitrogen fertilizer application.
- This legume cover crop shall not be grazed or harvested for forage.
- Follow an NRCS approved Nutrient Management Plan.
- This enhancement does not apply to traditional or leguminous field crops, such as, peanuts, soybeans, and alfalfa.

### RECORDKEEPING

**In order to verify performance with these criteria, you must complete the following records.**

Field No.	Crop yr/crop	N Needs lbs/ac	Legume Species Planted	Crop Following Legume Species	N Supplied lbs/ac by Legume	Date Planted
