

CSP JOB SHEET

EPM-Biological Pest Control

ENHANCEMENT: Use of Cooperative Extension Service approved biological control methods including genetically engineered Bt crops to reduce the amount of pesticides applied.

BENEFITS

- Reduce or eliminate introduction of potentially harmful pesticides into the environment.

CRITERIA

To be eligible for this enhancement payment, fields must meet the following criteria.

- Producer must have a potentially economically damaging pest present.
- Active decision by producer to replace use of an effective synthetic pesticide with a biological control method.

RECORDKEEPING

In order to verify performance with these criteria, you must complete the following records.

Field	Crop/Year	Pest	Pesticide Alternative	Alternative Method
