

Errata

1. Page 1-1. Disregard the last two lines on column 2. The page should end with "...a new permit is required."
2. Pages 3-17, 3-18, and 3-19. Girder sizing charts were omitted. Replacement pages are being shipped with the handbook. Replace pages 3-17, 3-18, and 3-19.
3. Appendix C, Sheet 4 of 8. The words "BUT RECOMMENDED" appear in the Treatment requirements box. Disregard these words. The last two lines in the box should read "*All 2" x 8" Stationary planks.*"
4. Appendix D and Appendix E. Blanks for filling in the appropriate girder sizes were omitted from Stacking Shed A and Stacking Shed B construction drawings. Building planner should note girder size on sheet 4 of the construction drawings.
5. Appendix D. Lateral Bracing on Stacking Shed A is optional. This is not reflected in the construction drawings. If the member sizing chart on page 3-17 (Stacking Shed A - Without Bracing) is used, the building planner should note that the building is unbraced on sheet 4 of the construction drawings.
